

Optical Fibre Tools - Strip / Cut

Description

We only supply the tools that we use ourselves and fully trust.

Kevlar Scissors

- Arguably the best kevlar scissors available.
- Reliable and long lasting well suited the job

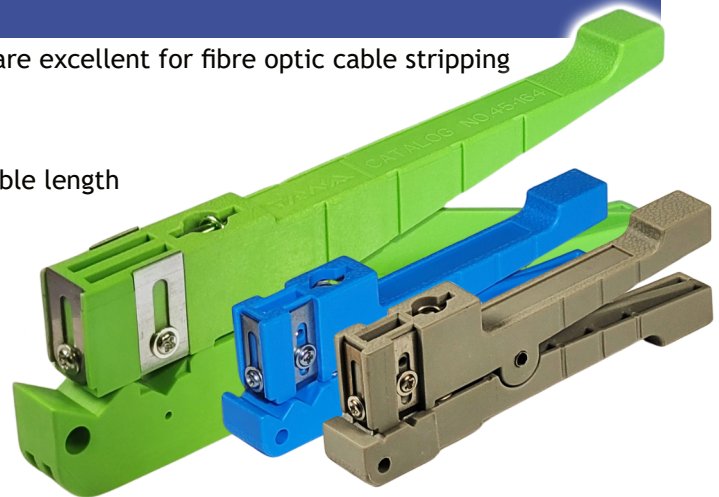

Fibre Strippers

- CFS-3 strippers are well regarded by fibre optic installers
- Three strip sizes to suit simplex jacket / 900um / 250um fibre

COAX Strippers

- Although commonly known as COAX strippers these tools are excellent for fibre optic cable stripping
- Fully adjustable blade depth
- Suitable for rotary cutting
- Front blade is curved for longitudinal slitting along the cable length
