

Optical Fibre Optical Fibre Pigtails

Description

Used to terminate cables in LAN applications, data centres and telecommunication rooms. Our fibre optic pigtails are available in Singlemode (SM) and Multimode (OM1, OM3 & OM4).

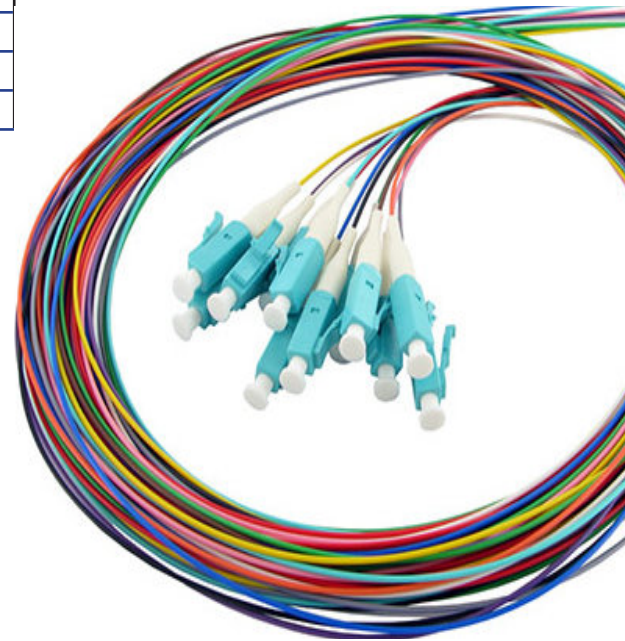

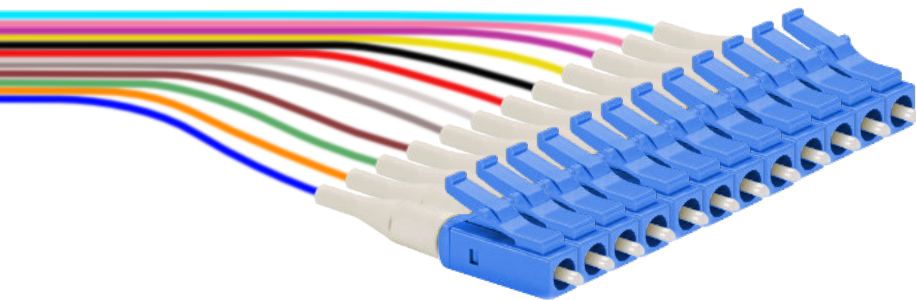

The range includes combinations of most popular connectors such as LC, SC and ST with others on request.

Features

- High quality, machine polished connectors for consistent low loss performance.
- Connectors are colour coded to industry standards making for easy identification of the various fibre types.
- All pigtails are fully tested to ensure they meet quality and performance standards.
- Available as standard in 12 packs with each fibre colour coded to suit the fibre you are terminating.
- more popular pigtail types are also available in 6 packs, ask your supplier.

Attenuation

Multimode LC, SC, ST	Insertion Loss (dB) Typical / Max	0.1 / 0.3
Singlemode LC, SC, ST	Insertion Loss (dB) Typical / Max	0.1 / 0.3
	Return Loss (dB) Min	55
Singlemode LC/APC, SC/APC	Insertion Loss (dB) Typical / Max	0.15 / 0.3
	Return Loss (dB) Min	65

Part Numbers

PT12	Fibre Type	Connector
12 Pack	OM1 -	LC - LC
	OM3 62.5/125	SC - SC
	OM4 - 50/125	ST - ST
	SM - 50/125	SA - SC/APC
	- 9/125	LA - LC/APC
